

Meet Bridget!

Life Has taken me..

I had planned to be an Astronaut and somehow ended up in Public Health in my early thirties while volunteering at a soup kitchen down south.

Feeling Jazzy?

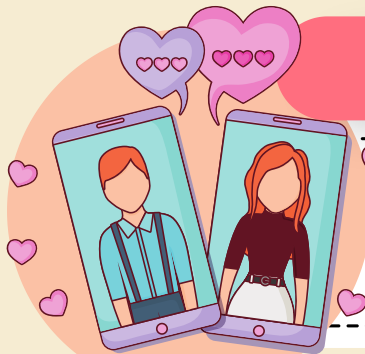

I grew up listening to Dizzy G visiting my grandparents every summer.

"I quote"

" " I spy"

Love this! It's direct and brings me back to road trips as a child and with my kids!

Did you know?

I adopted 5 dogs and hope to climb Mount Everest within the next 5 years.
