PCG Fellow Weekly Requirements

Corrective Action Process

We work to ensure that all employees are satisfactorily performing job duties and responsibilities. If any issues or concerns do arise, we encourage host organizations personnel to reach out to the PCG team for resolution as soon as possible.

We wanted to provide a summary of the corrective action process that SSO Human Resources follows:

- 1. Verbal warning** – clarify expectations of acceptable performance, develop an action plan for improvement, and advise of consequences if the performance problem is not corrected.
- 2. Written Warning** – state that performance or conduct is unacceptable, develop an action plan for improvement, and document a written warning of termination that states that continuation of any unacceptable performance for the same or different reason may result in termination.
- 3. Final Warning** – state that performance or conduct is unacceptable, and further continuation of such performance will result in disciplinary action up to and including termination of employment.
- 4. Discharge** – termination of employment with or without notice.

****Please note that each step needs to have thorough documentation.**

Note: Corrective action is not always a continuous process and can be imposed at any step. The PCG leadership team and/or SSO human resources may use one or more corrective actions at their discretion. There may be situations where termination is necessary, regardless of the steps above.

Extended Hours and Overtime

- All Fellowship positions are 35, 37.5, or 40 hours as outlined in the Fellowship Plan.
